Reviews

This book is definitely not straightforward to get started on studying but extremely exciting to read. It is really simplistic but shocks in the 50 percent of the ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.

Excerpt: .Nature; and also the perpetual phenomena of the action of intelligent Man upon the world around him--denies, in a word, the evidences of his senses. He is most false to the logic of true science who falls short of tracing effects thru a line of causation as evident as that by which Will, or Mind, interacts with the material World. Thru this line there is no blank which the logic of deduction is unable to fill, as appears when it is realized that mind is something reacting with something, and not nothing reacting with something to produce a physical effect; which would be as impossible as for materialistic scientists to conceive of Spiritual Ethers and substance. Mediumship and Spiritual manifestations of almost every conceivable nature are now as common as almost any physical phenomena, and those unacquainted with them are simply ignorant. The leaders of thought, the Clergy and Men of Science, owe it to their fellow men to explain this phenomena upon scientific principles instead of ignoring them; or attributing them to fraud and imposture; or ridiculing the fact as unworthy the attention of sensible people. There are frauds and impostors in every department of man s work; but there are the genuine, just the same. There is pure wheat tho tares grow with it. There is nothing in truth too trivial to be unworthy of a scientific explanation. No other counts in this age. The straw that moves in the breeze shows...
