

Steel Structures: Practical Design Studies (Hardback)

By Hassan Al Nageim, T. J. Macginley

Taylor Francis Ltd, United Kingdom, 2006. Hardback. Book Condition: New. 3rd Revised edition. 234 x 158 mm. Language: English . Brand New Book ***** Print on Demand *****.The third edition of this popular book now contains references to both Eurocodes and British Standards, as well as new and revised examples, and sections on sustainability, composite columns and local buckling. Initial chapters cover the essentials of structural engineering and structural steel design, whilst the remainder of the book is dedicated to a detailed examination of the analysis and design of selected types of structures, presenting complex designs in an understandable and user-friendly way. These structures include a range of single and multi-storey buildings, floor systems and wide-span buildings. Emphasis is placed on practical design with a view to helping undergraduate students and newly qualified engineers bridge the gap between academic study and work in the design office. Experienced engineers who need a refresher course on up-to-date methods of design and analysis will also find the book useful.
