SEA IS ALL ABOUT US

Peabody Essex Museum,U.S., United States, 2014. Paperback. Book Condition: New. 216 x 135 mm. Language: English . Brand New Book ***** Print on Demand *****.A revised edition of the classic work, originally published by the Peabody Museum of Salem. One of the best handbooks available for those interested in exploring the seashore populations and general ecology of northern New England waters and Cape Ann. The perfect companion guide for the serious student of marine biology or the enthusiastic amateur adventurer and ecologist. A new printing of this book could not be more timely. If you take it and go down to the water, I imagine you will return again and again, and like the authors, be inspired to love and protect the sea that is all about us. From the Foreword by Deborah Cramer, Author of Smithsonian Ocean: Our Water Our World The Sea is All About Us has been a treasured guide for over 40 years and endures as the best handbook available for exploring this stretch of New England coast. I am delighted that it has been updated and reprinted, so I can continue to recommend it for all who seek to know more about this region s remarkable marine and coastal habitats. Jane Winchell, The Sarah Fraser Robbins Director, Art Nature Center, Peabody Essex Museum A very useful companion for a trip to this fascinating habitat, whether it is your first trip to the tide zone or you are returning to visit slimy old friends. Edward S. Gilfillan, Bowdoin College I am delighted to see this field guide being reprinted. It was a welcome text for laymen and field biology classes 40 years ago and has stood the test of time. Sandra E. Shumway, University of Connecticut You are holding in your hot little hands one of...
