One day, Angel helps Granny unpack a mysterious package which changes everything. Together they experience the fascinating world of metamorphosis as they watch caterpillars transform into beautiful Painted Lady butterflies. As Angel anticipates the excitement and pressure of competing in a Science Fair, they learn new things about each other and themselves. The bond between granddaughter and grandmother strengthens as they rescue Angel s favorite butterfly, Josie, from a broken wing. This book is based on true facts about insects and nature and uses humour and real life experiences as a teaching tool. Kids are having such a good time they don t even realize they are learning. It is a great resource for parents and teachers whether at home, at grandma s house or in a classroom. Who knew science could be so fun? Read the book and find out how you too can raise butterflies. There have been many books written about the wonders of metamorphosis but none as unique as Angel and Granny s adventure. There is an exciting twist to the story as Granny repairs a broken wing on Angel s painted lady butterfly Josie. This story is different as it is told through the eyes of a child and through many challenges and surprises; Angel overcomes some of her fears about bugs. Near the end of the book, the setting turns from Granny s Exploration Room to the Science Fair at Angel s school. A very unique book that children can relate to while assisting teachers in the classroom...
