Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Filters and Filter Presses: For the Separation of Liquids and Solids Owing to the exceptionally great variety in characteristics shown by the mixtures to be separated, to the conditions of working to be satisfied, and to the fluctuating capacity for being resolved of a single mixture, any research to lay down at the outset calculations for standard measurements in the construction of filters and centrifuges suitable for each special case, appears hopeless. We have hitherto been thrown back upon experience or special investigation in deciding upon the applicability of a particular apparatus for a particular purpose. Only those dimensions can be ascertained by calculation that apply to parts of filters or centrifuges, the mechanical demands on which require estimation. Preface To The English Edition In offering to a world-wide circle of English readers a translation of this German work of F. A. Buhler, the compilers have thought it advisable to include a new section so as to enable them to give a full description of the various kinds of filters suitable for and applicable to a given industry, and also incidentally to incorporate some general observations on the Theory and Practice of Filtration. For this purpose the Sugar Industry has been selected because of, first, the magnitude of its operations; second, the large variety of filters employed in its various stages; third, the special precautions needed; and, fourth, the Aids to Filtration found useful. This addition, it is hoped, will make the volume serviceable to a much larger number of readers than would otherwise have been the case, and will render the work so much the more comprehensive in its character. It was thought advisable...
